

ANTI-CIGARETTE STILL IN THE RING

Measure Was Given a New
Lease of Life in Sen-
ate Today.

VOTING MACHINE BILL

Hall Bill Providing for a Con-
stitutional Amendment
Has Been Passed.

AT WORK ON APPORTIONMENT

Madison, Wis., March 6.—The anti-cigarette bill was given a new lease of life today in the senate. It was on the calendar for indefinite postponement on recommendation of the health committee, but after a warm debate was referred to the judiciary committee by a majority of one.

The Hall bill for a constitutional amendment providing for the use of voting machines in Wisconsin was passed by the assembly.

Both houses adjourned early to make way for the apportionment committee which met after the session and will probably complete the make up of assembly districts today.

RAILROADS ARGUE THE CASE.

Use Gov. LaFollette's Message to Sustain Their Contentions.

Madison, Wis., March 6.—The railroad representatives who appeared before the joint committee on assessment and collection of taxes, yesterday afternoon and last evening to speak against the two railroad tax bills prepared by the tax commission had a sensation up their sleeves. They are using nothing less than Governor LaFollette's message to defeat the bills, and the impression that they have made so far has created a sensation among the governor's warmest friends in both houses of the legislature.

The Owen bill which proposes to give power to common councils to amend and alter franchises, will come up for engrossment and a third reading in the assembly today. The bill will precipitate a lively argument on the floor of the assembly. It is one of the several populist measures now pending, and there is considerable doubt if it can pass the assembly. It has but little show in the senate where it is generally believed that it will be killed.

The assembly committee on cities has decided to recommend for passage Mr. Dodge's bill reducing the exemption of wages from \$60 to \$40 a month for all wage earners, after considering the bill in executive session for about an hour.

The committee decided to recommend for indefinite postponement Mr. Andrews' bill providing that every parent or other person having a child between the ages of 7 and thirteen years must send the child to school at least twelve weeks each year. There were no arguments on the bill.

The anti-cigarette bill was reported for indefinite postponement in the senate by the committee on public health and sanitation. No statements of the reasons of the committee were sent in with the bill.

The joint claims committee last night had a hearing on the bill introduced by the assembly committee on agriculture, appropriating \$49,356 for improvements on the state fair grounds. No action was taken on the bill.

BRAGG GOES TO WASHINGTON.

Fond du Lac, Wis., March 6.—General

al Bragg will leave this week for Washington, D. C. He is thinking of making his home in the capital city. Mrs. Bragg will stay here for awhile, joining the general in the summer.

TAKES DOWN BRITISH FLAG.

Former Ensign Lewis of Boston Threatened by Massacre.

Boston, Mass., March 6.—The British flag which was hung to the breeze on March 1 from a third-story window at 2 Derne street, in the rear of the statehouse, has been furtled. Inventor Lewis, formerly an ensign in the United States navy, is the man who unfurled the Union Jack. The residents of the locality were considerably stirred up over the matter, and they called an informal mass meeting to take the law into their own hands and compel Mr. Lewis to withdraw the emblem. A number of legislators waited on Mr. Lewis to have him remove it, but he was not at home. Mr. Lewis says that William Goforth, a confidential adviser of Washington, was one of his ancestors. He says that he is not an Anglomaniac, but for private reasons he will fly the British flag on March 1 as long as blood courses through his revolutionary veins.

SENT TO WAUPUN FOR 40 MONTHS EACH

Thomas Gordon and George Williams,
the Beloit Robbers, Sentenced
by Judge Fifield.

Thomas Gordon and George Williams, the two men arrested by Officer Cash Whipple of Beloit on the night of Feb. 21, on the charge of robbing T. D. Whitford in an alley in the rear of Carney's saloon, were brought into court this morning. They withdrew their plea of not guilty and plead guilty to the charge of not being armed with a dangerous weapon. They did assault T. D. Whitford with the intent to rob and steal. On their plea of guilty to the charge Judge Fifield sentenced them each to a term of three and a half years in the state prison at Waupun. Sheriff Maltress left on the 12:45 train today for Waupun with the prisoners.

Williams is an old hand at the business and has already served one term in the state prison. He was sent up four years ago for picking pockets at the Walworth County fair at Elkhorn.

BOTHA DICTATES TERMS OF PEACE

An Agreement to Conclude the Boer
War Is Now Said To Be
Under Way.

New York, March 6.—A Pretoria dispatch to the Evening Journal asserts that Kitchener, Milner and Gen. Botha are discussing the terms of a complete settlement of the Boer war. An agreement is expected in three days. Botha demands that no Boers be sent to Helena as prisoners and that those now there be returned and the rebels of Cape Colony be not punished. That private property be protected and the future form of government be assured.

HAY-PAUNCEFOTE TREATY IS DEAD

Failure to Ratify Before March 4,
Makes Further Negotiations Be-
tween Governments Necessary.

Washington, D. C., March 6.—The Hay-Pauncefote treaty, intended to replace the Clayton-Bulwer treaty, relative to the construction of isthmian waterways, is dead. The death was caused technically by the fact that the last cause of the treaty allowed only the period of time up to March 4, for its ratification. Neither the government of the United States nor of Great Britain appears to have made any formal effort to extend that period.

THIEVES FORGE RAILWAY PASSES; SECURE MANY THOUSAND DOLLARS

The Duplicates Are So Near the Real Thing That
Conductors were Easily Deceived—Two
Arrests Made at Chicago.

Chicago, March 6.—W. A. Steinborn, ticket broker at 192 South Clark street, and Joseph Adler, his clerk, are under arrest charged with forging and manipulating a ticket swindle whereby, it is said, they have beaten the Illinois Central Railroad company out of thousands of dollars, although the full extent of their operations has not yet been determined. Last December ticket checkers employed by the company made the discovery that a number of bogus passes were being used for transportation. These were in the style and form of the regular passes issued by the company and bore the forged signatures of officers of the company who are authorized to issue passes. The signatures were so near the duplicate of the real signatures that every conductor on the road was deceived by them and L. L. Losey, personal-injury agent, could scarcely determine whether his own signature was genuine or forged. The passes were printed from the best of plates and there were only one or two slight discrepancies from which it was possible to detect the false issue.

DUKE TAKEN VERY MUCH BY SURPRISE

Manchester Arrives Home with His American Bride,
and Is Sued for Breach of Promise.

Liverpool, March 6.—The Duke of Manchester today arrived on the Oceanic from the United States where he recently spent his honeymoon with his wife, formerly Miss Zimmerman of Cincinnati. The duke was immediately served with a writ in a suit of damages for breach of promise brought by Miss Porter Knight of Marlboro mansion, Westminster, who claims that the duke was engaged to make her his wife before he married the American woman. The duke was taken very much by surprise.

ROBT. S. M'CORMICK GOES TO AUSTRALIA

Bureau of Navigation—Nom-
inations Made by President.

Crownshield to be chief of the bureau of navigation with the rank of rear admiral, Commanders Chapman, and Rob't Berry to be captains in the navy and Lieutenant Commander Daniel Stuart to be commander in the navy.

PORTO RICO AND CUBA

Representative Cooper To Make Exten-
sive Trip—W. G. Wheeler Admit-
ted to Supreme Court Practice.

Washington, March 6.—Although the house voted down the proposition for authorizing the insular committee to visit the islands of the nation that result will not deter Representative Cooper of Wisconsin, chairman of the committee from visiting the islands on his own account this summer for purposes of observation.

Representative Cooper will leave in a few days for Porto Rico and later in the season he will probably visit Cuba and the Philippines. Representative Tawney of Minnesota, also a member of the committee will go to the Philippines next summer.

On motion of Senator Quarles, U. S. Dist. Atty. W. G. Wheeler of Janesville, and Attorney F. R. Bentley of Baraboo were today admitted to practice before the United States supreme court.

NO CLOTURE RULES FOR THIS SESSION

Democrats of the Senate Serve Notice
That They Would Fight It to
the Bitter End.

Washington, March 6.—The idea of adopting a cloture rule for the senate this session has been abandoned by the republicans. Platts' resolution introduced today was referred to the committee on rules and probably won't be reported back before adjournment. Platt himself announced on the floor of the senate that he did not expect any action this session. This decision is the result of a notice served by the democrats on the republican majority that they will fight to the end against the proposed change in rules.

Cabinet Is Sworn In.

Washington, March 6.—Chief Justice Fuller this morning went to the White House and swore in eight members of the cabinet.

SPIRITUALISTS IN SESSION.

National Association Meets in Regu-
lar Annual Conference.

St. Joseph, Mo., March 6.—Three hundred spiritualists from all parts of the country are here attending the annual conference of the spiritualists association of America.

The first session was held at two thirty this afternoon and another was held last night. Harrison D. Barrett of Washington, D. C., president of the association is in attendance, as are George W. Kates and Zella Kates of Minneapolis, missionaries of the spiritualists' association.

Mrs. Kates is one of the most proficient members of the organization and while here will transmit messages to the dead and receive answers, the officers and visitors will remain until the close of the meeting tomorrow night.

Ex-Embassador Uhl Dying.

Grand Rapids, Mich., March 6.—Former U. S. ambassador to Germany, Edwin F. Uhl, is dying.

LIVELY FIGHT ON THE OSTEOPATHY BILL

Friends of the Measure Have Launched
a Strong Campaign—Many Fa-
vorable Petitions Pouring In.

Madison, Wis., March 6.—A lively fight is expected on the floor of the assembly when the committee on health and sanitation of the lower house makes its report on Senator Roehr's osteopathy bill. The friends of the measure have launched a strong campaign for the bill and petitions from all parts of the state are now pouring into the assembly urging the passage of the bill. On the other hand the measure finds many opponents who are asserting their utmost to kill it.

Dr. L. E. Cherry of Milwaukee has been the head of the movement that the osteopaths have started for the campaign but he is temporarily absent from the capital for a week.

STATE BOARD IN SESSION AT MADISON

Working on Premium List for the Next
State Fair—Election of Offi-
cers Postponed.

Madison, Wis., March 6.—The state board of agriculture yesterday began its annual meeting. Little was done aside from appearing before the joint claims committee last night in favor of an appropriation for improvements on the state fair grounds and to work over the premium list for the next fair. The board is in session again today. It was decided today to postpone the election of officers to an adjourned meeting.

FIGHTING BOB HAS BEEN PROMOTED

Captains Evans and Taylor Commis-
sioned as Rear Admirals for
Their Work Off Santiago.

Washington, D. C., March 6.—It was announced at the navy department today that Captains R. D. Evans and H. C. Taylor, having been advanced five numbers for services in the battle of Santiago, were commissioned rear admirals to date from Feb. 11, last.

GREAT STOCK OF GOLD

Total in United States Treasury Is
\$489,412,158, the Highest Point
Ever Reached.

Washington, D. C., March 6.—The amount of gross gold in the treasury today was \$489,412,158, the highest point ever reached in the history of the government. This amount includes the \$150,000,000 held as a reserve, \$276,019,959 held against gold certificates, and \$63,392,199 in the general fund.

ENGLAND MAY PLACE TAX ON SUGAR

Coming Budget Will Break the Historic Rule of Free
Trade—Government in Need of Funds

London, March 6.—The chancellor of the exchequer, Sir Michael Hicks-Beach, it is reported, will introduce a duty on sugar on the forthcoming budget and will perhaps also add a countervailing duty.

This serious departure from England's historic principles of free trade has been under discussion for some time, but efforts have been made to keep the provisions of the budget religiously secret until announced in the house of commons.

However, if sugar is not taken off the free list, there will be a large number of disappointed conservatives; on

IRISH EJECTED FROM THE HOUSE

Members of Parliament Are
Dragged Out by a
Posse of Police.

FREE FIGHT FOLLOWS

Ireland's Members Object to
Cloture Being Applied on
Educational Estimates.

GAGGING POLICY OF BALFOUR

London, March 6.—The excitement ran high this morning over the scene early this morning in the great crowds gathered outside the commons when that body met at noon. Two divisions of police were held in readiness to quell any row that might occur. The Irish nationalist leader Redmond at the opening raised the question of privilege, contending that the Irish members were forcibly removed as had been reported for disregard for the chair without proper steps being taken of identifying them. He was interrupted by the speaker who said it was not a question of privilege but of order.

London, March 6.—Sixteen of Ireland's representatives were carried bodily from the floor of the house of commons this morning by police-men.

This was the climax of a scene of turbulence surpassing in its sensational features the clashes in the reichstag which have made the name of Austro-Hungary's legislative body a byword.

Hands and feet were freely used by the recalcitrant members and before the policemen were summoned by Speaker Scully there were five minutes of free fighting on the floor. When the officers appeared more than 100 strong, they were greeted with Irish yells of defiance and then were also given examples of Celtic fighting.

So desperately did the recalcitrant members resist that to carry each one out of the chamber required the combined efforts of from six to eight officers and the recalcitrants were almost stripped of their clothing in the battle.

A. J. Balfour, the government leader, caused the outburst of rage by applying the closure law on the educational estimates. Indignant Irish protests were ignored and then the Celts, under the leadership of Eugene Crean of Cork resolved to do their utmost to prevent action.

The demonstration is in line with the expressed determination of the united Irish parliamentary party to block legislation as much as possible unless they are given a fair hearing and are granted remedial legislation for Ireland.

Never before had such a scene occurred in the house as accompanied the removal of Mr. Crean. He struggled fiercely with the attendants, who summoned the police, a dozen constables entering the house. The nationalists jeered at them. Four or five stalwart policemen proceeded to seize Mr. Crean, who stuck his legs under the seat and could not be moved for some minutes.

Meanwhile other policemen were struggling and fighting with other Irishmen who stood up and obstructed the passage to Mr. Crean's seat. The Irish shouted "Don't kill him," and "don't kill the man."

The nationalists fought and struggled frantically but at length a superior force of police succeeded in dragging Mr. Crean out by the legs and arms and carrying him down the floor of the house, the Irishmen standing and shouting wildly, "Shame," "murderers," and "South African brutality."

WILLING TO ACCEPT A COMPROMISE

LaFollette Forces Find They Cannot Pass the Pres-
ent Primary Election Bill.

Madison, Wis., March 6.—For the first time today in the contest over the primary election bill the supporters of the bill are ready to admit and intimate they would accept a compromise measure. It also came to light that Assemblyman Stevens, father of the present bill, is drafting a bill along these lines, containing some of the amendments that have been offered.

Assemblyman Middleton, a member of the committee on privileges and elections, has decided not to support the primary election bill unless it is greatly modified.

Supporters of the measure intimate that if it comes to the worst and the fight must be made that they have enough votes in the assembly to block

legislation in retaliation for defeating the bill. The plan of the supporters of the bill is now not to report the bill until next week and possibly not then. They say that they can gain strength by waiting and that sentiment for the bill will grow.

It is well known that Mr. Stevens generally speaks the views of Gov. LaFollette on the subject of the bill and he today for the first time was ready to grant that concessions would be granted in an effort to satisfy opposition. While he declined to say how far these concessions would extend, he stated that the supporters of the bill were ready to listen to any amendments that might be proposed. He declined to say if the abolition of the caucus and convention system could be compromised.

LANDED A TARPON WEIGHING 142 LBS.

Fish Story from the Gulf Coast Implicating F. C. Cook, the Local Jeweler.

Can a man whose avocation is does not exceed 110 pounds catch and land a fish whose certified weight is 142 pounds, "all by his lonesome?"

That is the mathematical question which F. C. Cook's friends are endeavoring to figure out in a manner that will not be too great a strain either upon their imagination or their conscience. To decide it in the affirmative calls for a great exercise of the former faculty, and to deny the possibility of such an exploit is to doubt Mr. Cook's veracity.

In short, Mr. Cook, who, with a party of pleasure seekers, is enjoying the balmy breezes of Florida, while the balance of the population of Janesville is secretly or openly swearing at the winter weather which continues to prevail, writes home that he, himself, landed a tarpon weighing 142 pounds. To substantiate the statement Mr. Cook enclosed a scale of the fish. This scale is round, measures two inches in diameter, and bears the inscription "Tarpon scale from fish landed by F. C. Cook, weight 142 pounds, Gulf of Mexico."

Mr. Cook further requested that no publicity be given his exploit for fear the "boys" might think it was a "fish story." If this should prove to be the general belief, The Gazette very modestly refrains from claiming any of the credit for the great ability manifested in its manufacture. All praise should go to the one to whom it is due.

As a simple suggestion, which may serve in reconciling the conquest of the 142 pound fish by the 110 pound man, it might be well to state however, that a glance at Webster reveals the fact that there is such a fish as the tarpon, that it frequently grows to be more than six feet in length and that it is sometimes known as the silver fish, owing to its large, silvery scales. Perhaps Mr. Cook's long years of experience as a jeweler stood him in good stead in making this immense haul.

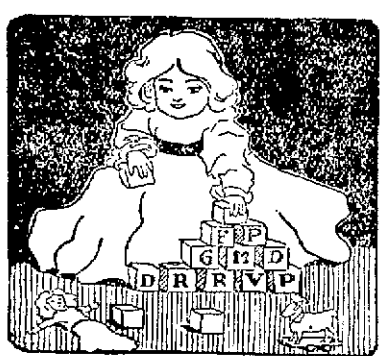

The letter in which the tarpon scale was enclosed was written from St. Petersburg, Fla., and states that the party is having a delightful outing. The weather is like July in Wisconsin, with the thermometer 80 in the shade. Shirt sleeves are the prevailing fashion with the men and the fishing is all that is to be desired. The party will be home within a week or two.

AMUSEMENT NOTES

In Sol Smith Russell's long career he has never produced a better or more successful play than his famous comedy "A Poor Relation."

Mr. Russell's season being booked in the larger cities many of the smaller ones have not had the opportunity of seeing this charming play, and it is with pleasure that we announce the coming of Mr. Keenan and "A Poor Relation," to the Myers opera house next Friday night. Mr. Keenan will appear as "Noah Vale" the part that made Mr. Russell famous, and judging from the unbounded praise of both press and public we should also say was making Mr. Keenan famous.

Mr. Keenan's art is not an enigma. It is simple, natural and above all human. It is an art which half conceals and half reveals. "The audience does not see Mr. Keenan but

Building

Requires a foundation. That is just as true of the building up of the body as of the building of a house. The foundation of a strong body is a strong stomach. No man can be stronger than his stomach. A weak stomach means a weak man.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It enables the perfect digestion and assimilation of the food which is eaten. Thus it builds up the body and restores strength in the only way known to Nature or to science—by digested and assimilated food.

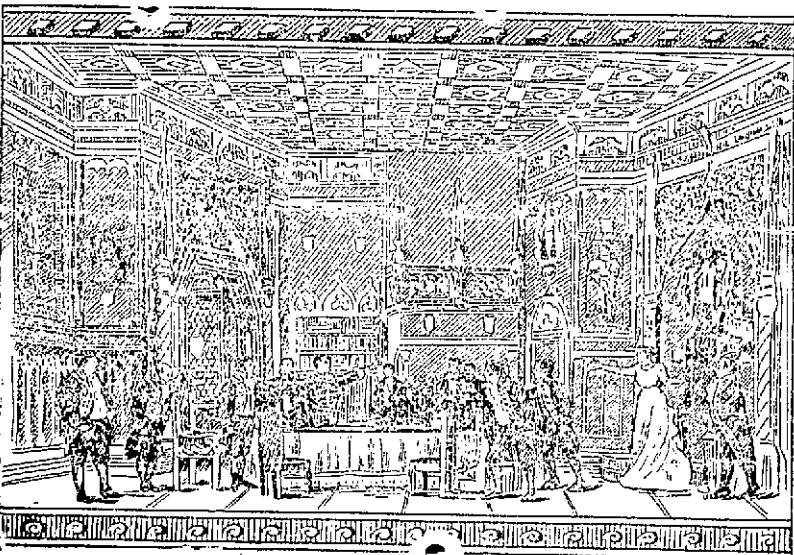

"While living in Charlotte, N. C., your medicine cured me of asthma and nasal catarrh," writes J. L. Lundgren, Esq., of 221 Whitehall Street, Atlanta, Ga. "At that time life was a burden to me, and after spending hundreds of dollars under numerous doctors I was dying by inches. I weighed only 120 pounds. In twenty days after I commenced your treatment I was well of both troubles, and in six months I weighed 170 pounds, and was in perfect health. I have never felt the slightest symptom of either since. Am sixty-five years old and in perfect health, and weigh 160 pounds. No money could repay you for what you did for me. I would not return to the condition I was in, in October, 1897, for Rockefeller's wealth."

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery," when a laxative is required.

"Noah Vale" says the Cincinnati Inquirer.

In the supporting company we find such names as George B. Miller, Geo. R. Sprague, Martus Moriarty, John Cumberland, Misses Veta Henderson—past season with Viola Allen company—Fanny Barrington Sprague, Katharin Dooling, etc. Special scenery, costumes, stage settings—in fact every thing is carried by the company to insure a production correct and adequate in every detail.

Mr. Otis Skinner brings his new play, "Prince Otto" to the Myers Grand for an engagement of one night on March 12. Mr. George Nash is a member of the Skinner company and is said to perform some of the most sensational bits of acting seen on the stage for some time. It happens in the fourth act. Nash, as the prime minister, follows Miss Durbin, the Princess Seraphina, up a night of stairs, where he declares his passion for her. She realizes the enormity

of the insult seizes a dagger from a stand of arms and stabs him. The prime minister throwing up both arms falls headlong down the flight of stairs. The fall is a hard one, and though Mr. Nash has rehearsed it repeatedly it is never made twice the same way.

New Line Opens June 5.

Railroad men state that the Janesville and Southeastern railroad will be running cars over the new line on schedule time by June 5. The work will be pushed to completion as soon as the weather moderates and spring sets in. It will take some time after the rails and ties are laid to get the road ballasted up so that fast time can be made over it. The road is already completed fifty miles out from Chicago and regular trains are being run over the line.

Twenty Cars of Tobacco.

A. L. McIntosh, western agent of Julius Marquissee, has just finished loading twenty-four cars of tobacco which will be shipped to eastern parties. The shipment consists of about thirteen hundred cases of the '99 crop, and brought a good price. This is one of the largest sales made in this vicinity in some time. There is quite a demand for old goods and good prices are realized by those who still have packings on hand.

Two Sanitariums Combine.

The Oakwood Springs Retreat and the Lake Geneva Sanitarium have been consolidated, this new order of affairs having gone into effect the first of the present month. By this arrangement only mental cases will be received at Oakwood while the Lake Geneva Sanitarium will be conducted as a general health resort, no cases requiring guardianship being received there.

Among the large stockholders in the new combination are Dr. W. H. Palmer and Dr. James Mills of this city, Dr. Oscar A. King, who is also well known here, having formerly made this city his home and who founded both the institutions at Lake Geneva, is the principal stockholder.

EDUCATIONAL RALLY AT PLATTEVILLE

The Southern Wisconsin Teachers' Association will hold an educational rally at Platteville, Wis., Friday and Saturday, April 5 and 6. H. C. Buell of Whitewater is president of the association, and Duncan McGregor of Platteville is chairman of the local committee.

Every effort is being made to have the rally one of the best ever held in the state. As yet no definite announcement of the program can be made, but some of the attractive features of the meeting will be good addresses by prominent educators, an evening lecture, extensive discussions and valuable suggestions for all teachers.

During the rally a primary and common school section, an intermediate and upper form section, a high school section and a school board

section will be conducted, and it is expected that this plan will make the meeting one of especial profit. Free entertainment has been provided for all visiting lady teachers who become members of the association.

TWO REPRODUCTIONS OF PASTEL WORK

The March number of the Fine Arts Journal gives conspicuous space to two reproductions of pastel work by Mrs. E. G. Stetson, daughter of Mr. and Mrs. D. C. Burdick of this city, and also publishes the following very complimentary notice:

"The ideal heads found on this page of the Journal are after two pastels by Eleanor G. Stetson, a Chicago artist. Mrs. Stetson studied for some two years in 'Europe and has executed many portraits, among them those of President McKinley, and Governor Yates of Illinois, now in the Hamilton Club, and Ben King in the Press Club, Chicago. On Sarah Bernhardt's recent visit to this latter city she was entertained by her friends, Mr. and Mrs. Paul Picard. On the wall hung a portrait of Mrs. Picard, which Madame Bernhardt expatiated upon most enthusiastically, not only on account of its likeness to the original, but from an artistic sense. This portrait is one of Mrs. Stetson's latest works. Mrs. Stetson is very clever in the handling of pastel and most of her work is executed in this medium."

Headache often results from a disordered condition of the stomach and constipation of the bowels. A dose or two of Chamberlain's Stomach and Liver Tablets will correct these disorders and cure the headache. Sold by People's drugstore & King's Pharmacy.

"Lands Across the Sea."

Dr. Cullis gave another of his interesting lectures at Court Street M. E. church last evening, and his subject, "Lands Across the Sea," gave him opportunity for telling his audience much that was valuable and entertaining. The views shown included London bridge, Westminster Abbey and other points of interest in London; the Paris exposition building; the picturesque scenery of Switzerland, Milan, Naples, Venice and Rome.

By special request "Rock of Ages" and the "Flight of the Soul," which were given Sunday evening, will be repeated tonight in connection with the lecture, "Ten Nights in a Bar Room." Those who have heard Dr. Cullis and seen his views can understand why he was able to exhibit them for thirty one consecutive nights in Exeter hall, London.

John E. Searles Falls. New York, March 6.—John E. Searles, best known throughout the United States as a former director, secretary and treasurer of the American Sugar Refining company and now president of the American Cotton company, made an assignment for the benefit of his creditors. A man well informed in the matter made the assertion that the liabilities exceed the assets from \$1,000,000 to \$2,000,000. This is simply a guess.

HAVOC OF BATTLE OF THE FACTIONS

Milwaukee Journal: What havoc the battle of the factions over the primary election bill is creating is just beginning to be understood by the public. Sensational are the developments with respect to the relations of Governor La Follette and Senator Whitehead, who has a large reform following. The State, the Madison weekly which is the governor's own paper, in its current issue staps the senator in the face, and proclaims to the world that the governor and senator are "out." Here are the State's words:

"What did Senator Whitehead mean when he told the friends of the administration at home in Rock county at the time when he was anxious for them to acquiesce in his renomination for the state senate, that they could depend upon him in the senate to heartily support the administration in all its reform measures and in carrying out the planks of the republican state platform?"

"I am not Well enough to Work."

To Women who Work.

What tragedy for the wage-earning woman is hidden beneath the words "I am not well enough to work!"

Every penny of her slender income is needed for the necessities of life for herself and others. Seldom, indeed, is it that the girl or woman who works in a factory, or in some business office or store, has merely herself to support. Nearly always there is an invalid mother or sister, perhaps a brother or father.

She taxes her endurance, therefore, to the last limit before giving up.

She knows her place will be filled by some one else. She has no money laid up. Her wages have been insufficient for her pressing needs, and she has spent money on doctors, trying to keep at work and hold her place.

But it's no use—she has reached the limit. In her fight with female troubles she has come off second best, as myriads of women have before her.

What will happen, now that she has lost her place and has broken down in health?

These heart-stirring stories are being lived all around us in large cities, and every one of them might have been a story of health and energy, if the young woman had but written to Mrs. Pinkham when she first felt ill. She would have been told just how to make herself well and strong, as many other women have, and this advice would have cost her nothing.

And it is not alone in factories and business places that women are forced to give up on account of ill health. It is quite as often the woman who does her own work at home. This means, generally, doing the work for a household of seven or eight.

She also compels herself to attend to the daily round of duties when she ought to be in bed, and does not know where to look for that reliable help that will put her on her feet and stop those awful aches and pains.

The sure help for all ailing women, who work at home or elsewhere, is **Lydia E. Pinkham's Vegetable Compound**. Women who have used it testify to this with one voice.

When the periods are painful or too frequent; when the backaches and headaches drive out all ambition; when the heart-breaking, "dragged-down" sensation attacks you; when you are so nervous that every trivial thing excites you, you may be certain that there is some growing trouble fastening itself upon you. Do not let disease make headway. Write to Mrs. Pinkham, Lynn, Mass., for her free advice, and begin at once the use of

Lydia E. Pinkham's Vegetable Compound.

\$5000 REWARD

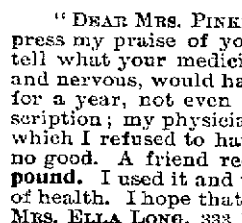

Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we are constantly publishing, we have deposited with the National City Bank, of Lynn, Mass., \$5,000, which will be paid to any person who will show that the above testimonials are not genuine, or were published before obtaining the writers' special permission.—LYDIA E. PINKHAM MEDICINE CO., LYNN, MASS.

From Women Cured by Mrs. Pinkham.

MISS KATIE P. JUNGLAS

"DEAR MRS. PINKHAM:—I write to thank you for the good **Lydia E. Pinkham's Vegetable Compound** and **Sanative Wash** have done me. It is now six years since I was taken sick. I had falling of the womb and ovarian trouble. I suffered untold pains; sometimes was so bad that I thought I could not live. I used the Vegetable Compound steadily for some months and am now well. If you like, you may use my letter for the benefit of others."—Miss KATIE P. JUNGLAS, New Salem, Mich.

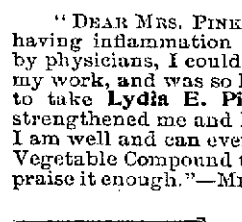

MRS. E. F. MORTON

"DEAR MRS. PINKHAM:—It affords me a great deal of pleasure to express my praise of your valuable **Vegetable Compound**. Words cannot tell what your medicine did for me. It saved my life. I was so weak and nervous, would have very bad hemorrhages. I did not do anything for a year, not even attend to my own family. I suffered beyond description; my physician said I could not get well without an operation, which I refused to have. I tried all kinds of medicine, but they did me no good. A friend recommended **Lydia E. Pinkham's Vegetable Compound**. I used it and the **Sanative Wash**, and am now enjoying the best of health. I hope that all suffering women will take your medicine."—Mrs. ELLA LONG, 333 Pearl St., Bridgetown, N. J.

MRS. E. F. MORTON

"DEAR MRS. PINKHAM:—I have been so delighted with your **Vegetable Compound** I thought I would write and thank you. My system was entirely run down; I suffered with terrible backache in the small of my back and could hardly stand upright; was more tired in the morning than on retiring at night. I had no appetite. Since taking **Lydia E. Pinkham's Vegetable Compound** I have gained fifteen pounds, and am gaining every week. My appetite has improved, have no backache, and I look better than I ever looked before. I shall recommend it to all my friends, as it certainly is a wonderful medicine."—Mrs. E. F. MORTON, 826 York St., Cincinnati, O.

MRS. W. P. VALENTINE

"DEAR MRS. PINKHAM:—I had been in poor health for twenty years, having inflammation of ovaries and womb trouble. Although treated by physicians, I could not seem to gain any strength, and could not do my work, and was so low spirited and tired of life, a friend advised me to take **Lydia E. Pinkham's Vegetable Compound**. The first bottle strengthened me and I wrote you. After taking six bottles, can say that I am well and can even do my washing. I cheerfully recommend your **Vegetable Compound** to every one with any female weakness, and cannot praise it enough."—Mrs. M. W. MILLER, 1033 Canal St., Guilford, Miss.

MRS. W. P. VALENTINE

"DEAR MRS. PINKHAM:—It is with pleasure that I add my testimony to your list, hoping it may induce others to avail themselves of the benefit of your valuable remedy. Before taking **Lydia E. Pinkham's Vegetable Compound** I felt very bad, had terrible sick headaches, no appetite, gnawing pain in stomach, pain in my back and right side; was tired and nervous, and so weak I could scarcely stand. I was not able to do anything, had sharp pains all through my body. Before I had taken half a bottle of your medicine, I found myself improving. I continued its use until I had taken four bottles and felt so well that I did not need any more. I am like a new person."—Mrs. W. P. VALENTINE, 566 Ferry Ave., Camden, N. J.

EGOTISTICAL JOURNALISM.

The country develops occasionally an editorial writer who is the personification of condensed egotism. Men who imagine that they possess more wisdom, more knowledge and keener perception than any other class of men living, and who delight in airing their views both in and out of season, and who engage in this sort of work, because some theoretical publisher furnishes them the opportunity.

Harper's Weekly has developed and encouraged this class of talent to a greater extent than any other publication in the country. Attempting to be a "Journal of Civilization" it has assumed to be authority on leading topics of the day, priding itself on its independence, and permitting its editorial writers to shape its policy and mould its destiny.

George William Curtis, one of the brightest journalists that the country ever produced, was so intensely impractical in his persistent effort to lead an independent political movement in the interests of theoretical and ideal politics, that he left the "Weekly" at the time of his death, well on the way to financial ruin, and Carl Schurz, an equally brilliant, but more theoretical writer, completed the task, and while the paper did not suspend publication, it was only saved by the generosity of wealthy creditors.

When the business was reorganized the new management appeared for a time to have acquired wisdom, and the "Weekly" abandoned fads and started out on a conservative and business like career. But the old idols could not be abolished and the editorial page is again in the hands of men of the Carl Schurz type. The last issue devotes a page to "Advice to President McKinley." The egotistical "It" giving the advice, imagines that he knows better how to run the government than the president. He ought to have a brass medal and transportation to Kansas, the paradise of freaks. The man is probably paid seventy-five dollars a week, and of course is competent to advise the President of the United States, the King of England, or any body else that in his sublime egotism needs advice.

It is well for the country, as well as for the success of publishers, that the work of editorial writers is not only lost in the paper, but also controlled by the business and common sense policy that governs all successful publications. When a writer becomes so full of knowledge and advice that he can't contain himself, he should give up newspaper work and write a book and then retire.

ATTITUDE OF THE GOVERNOR.

There is more or less foolish talk indulged in, concerning the attitude of the governor, in case the Primary Election bill is defeated. While it is generally understood that the measure was advanced by Governor LaFollette, and that he honestly believes it should become a law, yet it is hardly fair to him to claim that the defeat of the bill would antagonize him against the men in his own party, who opposed the measure from the same honest convictions that caused him to support it.

The governor is a fair minded man and like any other official in a high position, he realizes the importance of a fair minded administration, free from prejudice or personal preference, on questions of expediency. He also realizes the importance of party harmony, not only in the interests of his own administration, but for the future welfare of the party.

Governor LaFollette has before him the possibilities of a bright political future. He possesses elements of popularity, combined with recognized ability, that qualify him for leadership. He has too much good sense to be carried off his feet by prejudice for the Primary law or any other measure. If the bill should be defeated it will be because public sentiment is so strongly against it that success under any circumstances would be worse for the governor, and worse for the party, than defeat.

It is undoubtedly true that the caucus system of the state could be improved, and when final action is taken on the Primary bill, if that measure is defeated, there will be a good opportunity to take up the caucus law. In the meantime, discussion should be tempered with good judgment, and whatever the outcome, no scars should be left.

The "State," published at Madison,

in attempting to prove that Senator Whitehead is inconsistent, injures its own cause, without harming Mr. Whitehead. The senator refused to have presented at the convention that nominated him, the resolutions sent out all over the state, that sought to commit candidates to the support of a bill not yet born. He was perfectly fair about it, and said that he would not be committed to a measure that he knew nothing about. If every candidate in the state had shown the same manly independence, there would be less confusion today in the legislature.

The "Germania" of Milwaukee, speaking for its clientele, are both Scandinavian paper in Madison, sneaking for its clientele, are both pronounced against the Primary Election law. The "Germania" is particularly strong in its denunciation. In the face of these two strong party elements in opposition, combined with the conservative members of the party throughout the state, the legislature can not afford to be influenced by sentiment, or a few petitions that enthusiastic workers may secure. The rank and file of the people don't want the law, and every day strengthens the opposition.

President McKinley's inaugural address is a model of clean cut statements and well defined plans that will recommend it to the thoughtful judgment of every reader. It expresses appreciation and confidence, as well as a sense of responsibility in dealing with the important questions not yet fully settled. It anticipates for Cuba a bright and independent future, and for the Philippines of freedom, and in time an independent government. The message throughout is conservative and dignified and bears the stamp of intelligent statesmanship.

Senator Carter of Montana won cheap notoriety by talking against time to kill the River and Harbor bill. He succeeded, and whether the bill was full of merit, or destitute of it, the western senator will have the satisfaction of knowing that his little state is a power in the land. The right of free speech is a God-given right, but the right to use it untrammelled is a senatorial right that seems to lack all regard for Deity or decency. Some of the moss-backed rules of that dignified body need revising, in the interests of common sense, and intelligent legislation.

The army canteen has gone, but what has taken its place? Simply the ordinary saloon, within easy reach. One captain of a military post states that court martials for drunkenness have increased forty per cent. "Prohibition" scored a victory, while the army scored a drunk. It will continue to score drunks until common sense restores a remedy and safeguard, that fanatical sentiment destroyed.

ON THE GOLF LINKS

The increasing expense of golf is a question, which invariably confronts the player just prior to the opening of the season, as many golfers are in the habit of laying in a stock before the greens are uncovered. Last year it was quite noticeable around Chicago that re-made were being used to a large extent by some of our best players, and that the practice would be more general if the owners of the slightly used balls of recognized brands could be sure of getting back the same material as that given the "remaker."

This year it is quite probable that it will be "every golfer his own ball maker," as a very serviceable mold, the cost of which is comparatively small, has been gotten up by W. A. Johnson, a board of trade man, and his friends who have seen the finished "remade" think think very well of it. A unique feature of the mold is that golfers may have their names marked on the ball, where the stamp Agrippa or Silverthorn appears at present. If the practice of inscribing owners' names on balls should become general, it would certainly do away with many of the disputes which arise between two players using balls with similar markings.—Joseph E. G. Ryan in Inter Ocean.

A marriage license was issued today to Frank Kiessling of Holenville, and Dora Schmidt of Beloit.

Some people pay more per ton for coal than others, yet they are all charged the same price. The explanation of this seeming inconsistency, is that some buy ordinary coal, while others (the wise buyer) order GOOD, CLEAN COAL.

COAL

WHY it is cheaper to buy good clean coal is easily explained. Our good, clean coal is all coal, free from the impurities found in most coals. Don't pay for slate, dust, etc. Order Good clean coal of BADGER COAL CO., 'Phone 636.

DEATH TAKES TWO PIONEER RESIDENTS

**SAMUEL H. KEMMERER AND
SAMUEL J. CUCKOW.**

Both Were Well Known in Janesville and Rock County, and Their Loss Will Be Mourned by Many Friends and Relatives—The Funeral Arrangements.

Samuel H. Kemmerer, one of the pioneer residents of Rock county, is at rest in the everlasting sleep, his death having occurred at his home 153 South Academy street, this morning at 7:30 o'clock after an illness of three weeks' duration. Deceased lacked but a few months of being seventy-nine years of age and he had been in feeble health for the past five years. There was no organic ailment, simply a general breaking down of a man who had bravely borne his share of life's burdens and toil. Gradually he grew weaker until the end, which had been foreseen by his family and friends, came quietly and peacefully. Deceased was born in Hamilton township, Monroe county, June 4, 1822 and grew to manhood in his birthplace. He was married in Monroe county to Miss Elizabeth Gish, a sister of the late Dr. S. H. Gish of this city on the fourth of March, 1843, last Monday having been the fifty-third anniversary of their wedding.

In the fall of 1849 Mr. and Mrs. Kemmerer moved west and came direct to Rock county settling on a farm in the town of La Prairie where they resided until Mr. Kemmerer retired and came to make this city his home in 1885. Mr. Kemmerer was not only a prosperous farmer but he was also the possessor of such a kindly nature that his friends were many and sincere. He was highly esteemed throughout the county for his genuine worth. Since early boyhood he had been a consistent, earnest member of the Methodist church being both faithful in his attendance at its services and in the practice of its teachings in his daily life.

His death comes with peculiar force to the sorrow stricken widow and children, it being the first break in the family circle. Besides the wife the bereaved circle includes four sons, Abraham of Redfield, S. D.; Charles W. of the town of La Prairie; Freeman J. of Clinton, and Lewis, of this city; also two daughters, Mrs. Ida Van Valen, of Atlanta, Ga., and Miss Blandina Kemmerer of this city. A brother, Reuben Kemmerer of the town of La Prairie also survives.

Funeral services will be held from the home Friday morning at 10:30 o'clock, and will be conducted by Rev. W. W. Woodside assisted by Presiding Elder W. V. Stevens. The interment will be at Shoupere.

Samuel J. Cuckow.

Life's journey for Samuel J. Cuckow ended peacefully yesterday afternoon at three o'clock and in his death the community mourns the loss of a manly man and a true citizen while those who were privileged to enjoy a close acquaintanceship with him are sorrow stricken over the passing away of a true friend.

Deceased passed his eighty-sixth birthday on the 16th of last January. He had been in feeble health for several years and since the death of his wife last summer Mr. Cuckow had listened for the final summons. Theirs had been an ideal wedded life and those who knew them both felt that the husband would not long survive his wife. Ten days ago he was taken with a severe cold which was regarded as fatal almost from the first. For half a century Mr. Cuckow had been a resident of Rock county until fifteen years ago, when he retired from active life and came to this city to reside. He was one of the most prosperous farmers in southern Wisconsin, his farm near Emerald Grove being one of the best cultivated and improved in the town of Bradford. In early life he was a printer and his connection with the newspapers of New York and London was always regarded by him with pride. It was one of the most cherished memories and one of which he frequently spoke.

Samuel J. Cuckow was born in Rochester, Kent county, England, Jan. 16, 1815 and first came to America in 1818 with his father but returned to England three years later. Twice after that he came to America finally coming to Wisconsin in 1851. He was twice married, his first wife dying in 1849.

Mr. Cuckow was a man of culture, well informed on the various topics of the day. He was a great reader and in early life had enjoyed the acquaintance of Horace Greeley, William Cullen Bryant and other eminent men. He was a loyal citizen and possessed a patriotic love for the land of his adoption. Politically he was a republican and in religious affiliations he was a member of the Congregational church. He leaves one daughter, who resides in Chicago, and two sons, one in Dakota and one who lives on the Emerald Grove farm.

Funeral services will be held from the Congregational church tomorrow afternoon at 1:30 o'clock.

William M. Hatch.

Many sorrowing friends gathered at the home of Mr. and Mrs. Frank D.

Kimball, 151 South Main street, this afternoon at three o'clock to pay the final tribute of respect to the memory of William M. Hatch. Rev. R. C. Denison conducted the impressive service and Mrs. C. F. Yates and C. N. Vankirk rendered the song service beautifully. The interment was in Oak Hill cemetery, the remains being borne to the last resting place by the hands of relatives. Those who officiated as pall bearers were the deceased man's son, Martin W. Hatch, his son-in-law, Frank D. Kimball and his grandsons, George F. Kimball and Frank W. Kimball.

David Lowry.

David Lowry, an early settler of Rock county and a man who stood high in the esteem of all who knew him, died at his home in the town of Center yesterday afternoon at three o'clock. He was seventy-three years of age.

The funeral will be held from his home in the town of Center tomorrow afternoon at one o'clock.

FOES CLASP HANDS AS TRUE FRIENDS

**CONFEDERATE HERO GREETED
BY UNION VETERANS.**

Gen. John B. Gordon's Appearance On the People's Lecture Course Was an Occasion of Sentiment at Which Dr. J. B. Whiting Presided Admirably.

General John B. Gordon, ex-fighter for the cause of the Confederacy, ex-governor of Georgia and present American patriot and Southern gentleman stood on the platform of the Congregational church last evening against a background of draped flags and directly facing the emblem of the union as it waved above the silver crowned heads and earnest faces of the representatives of the union army. As he stood Gen. Gordon spoke of the "First Days of the Confederacy" a subject fraught with peculiar significance to the speaker and to the veterans before him for these same men, or the armies for which they stood, had faced each other before under far different circumstances. It was an impressive sight and one that will never be forgotten by the magnificent audience which witnessed it and which was content to play a secondary part in the dramatic incident.

The occasion was the closing attraction on the People's Lecture course. Through the courtesy of the committee members of W. H. Sargent Post G. A. R. were present as guests.

Dr. J. B. Whiting was chosen to preside as chairman for the evening and the choice was a most happy one. When he and Col. Gordon stepped upon the platform together they were greeted with a round of applause. Dr. Whiting stepped to the front and said that no gathering of soldiers was complete without a song from Col. E. O. Kimberly and so the soldier singer sang in a manner that showed that the words came from the heart, "With Sherman and Lee," a song so appropriate that it might have been written for the occasion.

Dr. Whiting's introduction of the speaker was one of the happiest and cleverest ever heard in this city. Tactfully he avoided anything that might be embarrassing to speaker or audience and gracefully he referred to the change of conditions since the war. With timely wit he spoke of the time when Gen. Gordon tried his best to visit the unwilling northern soldiers and then in behalf of those same soldiers he extended a cordial welcome to the southern hero. When the two soldiers clasped hands the audience with tear-wet eyes applauded and the thrilling enthusiasm reached its height when, at Dr. Whiting's request, Major S. C. Cobb led the Post in the Grand Army cheer for General Gordon.

The famous speaker was visibly affected by this welcome and before commencing his lecture he voiced his allegiance to the stars and stripes, in witness of which he made the statement that his every son and grandson eligible to service had fought as a volunteer against Spain.

Gen. Gordon is a fascinating speaker, a painter of eloquent word pictures which are enhanced by the vigor of his delivery. To those who expected an exhaustive treatment of the causes of the civil war, the lecture was somewhat of a disappointment. He maintained the honesty of both sides in the contest and paid glowing tributes to the soldiers and the glorious influence of the women both Southern and Northern.

He told many stories pathetic and humorous, one of the most impressive being his relation of his experiences on the day he was shot five times.

At the close of the lecture there was an informal reception, many of those present stepping forward to shake hands with the speaker.

THE RIGHT OF WAY HAS BEEN SECURED

**PROMOTERS OF NEW ELECTRIC
ROAD LOSING NO TIME.**

They Feel Confident That They Will Get a Franchise from Beloit—Estimates on the Cost of Building the Line—The Advantages of an Electric Railway.

H. H. Clough of Elgin and A. C. Powers of Beloit are in the city today in the interests of the Beloit, Delavan Lake and Janesville Electric road.

The right of way between this city and Beloit is now practically secured only two pieces of property yet remain unsecured. The parties interested in those two pieces both live out of the state. The negotiation for a right of way have to be carried on by mail and are necessarily slow. There is no question but that they will be secured and when they are this company will have an option on all the property on their proposed right of way from this city to Rockford outside of the city of Beloit.

Mr. Clough feels that the city of Beloit will grant a franchise to the road at their council meeting to be held on Thursday night. His proposition to the city of Beloit is very much to their advantage and one that they can hardly afford to turn down.

Estimates of the cost of building the different lines between this city and Beloit, were filed with the judiciary committee of the Beloit council by the representatives of the roads.

Mr. Frawley, representing the Rock River Electric Railway company says that his people estimate the cost of their proposed line from Janesville to Beloit, including cars and power house, to be \$12,000 per mile. Each car would be propelled by two thirty-five horse power motors. The power house would be likely to cost something like \$50,000 and would probably be located at Janesville, or else there would be a small power house at each end of the line.

Mr. Clough, representing the Beloit, Delavan Lake and Janesville Electric Railway company, estimates the cost of the line of his company would build from Rockford to Janesville, via Beloit, at \$18,000 to \$20,000 per mile, cars and power house included. The power house would positively be located at Beloit and would cost \$150,000. Each car on the line would be propelled by four 50-horse power motors.

Beloit is now the only thing in the way of the immediate construction of the Beloit, Delavan Lake and Janesville road. They have arranged matters so that the construction of the road will be commenced as soon as the spring sets in and the work rushed to completion.

It is the intention of this corporation to build a road that will be second to none in the United States and will be so constructed that it can give regular service in all kinds of weather.

The fact is and it is so looked upon by many of the merchants of Janesville that the proposed electric road will be of as much if not more advantage to the city than a steam road and also have the advantage of picking up passengers at all points along the line.

Mr. Clough and some of the members of the city council were out this afternoon looking over the different routes proposed for entering the city.

ROOSEVELT IN THE SENATE.

His First Ruling in His New Office

PASSES UPON AN OBJECTION.

Col. Roosevelt Makes Use of the Personal Pronoun Instead of Saying "The Chair"—His Opportunity to Choke Off Long Debates.

Washington, D. C., March 6.—Vice-President Roosevelt entered upon the discharge of his official duties as presiding officer of the senate when that body met at noon. He was soon required to make a ruling. During the reading of the journal Mr. Money desired to interrupt the proceedings. That Mr. McLaughlin, his colleague, might take the oath of office. Mr. Morgan objected, saying that the reading of the journal should be completed.

"I am of the impression that the rules require the reading of the journal first," announced Mr. Roosevelt when the matter was submitted to him for a decision. The announcement was quietly received, although it was noticed that the vice-president had used a personal pronoun instead of saying "the chair is of the opinion."

The cloture rule proposed to restrict debate will offer Mr. Roosevelt an opportunity to display his nerve and make a lasting reputation. The opposition has announced an intention to filibuster to prevent its adoption, but the filibuster can only be effective upon the chair's recognition.

Plans for Junketing Trips.

Several congressional junketing parties have completed plans that include visits to Cuba, the Pacific coast and the Philippines. The excursions at government expense are being arranged by representatives who during the last congress served upon committees on rivers and harbors, military affairs and insular affairs. They expect to be reappointed when the committees are organized for the next congress, and say the investigations are to be conducted to better equip them to discharge their official duties. The first of these junkets starts today for Havana. Members of the committee on rivers and harbors will go there by way of Jacksonville, Tampa and Key West and return by way of Miami. In June they will go to the Pacific by way of Galveston and other gulf ports. Members of the military committee will visit Cuba and Porto Rico, and will be followed by members of the naval committee. Chairman Coope and other members of the insular committee say that a trip to the Philippines is contemplated, but that it will be made at their own expense.

Enormous Surplus of Gold.

The amount of gross gold in the treasury today was \$459,412,158, the highest point ever reached in the history of the government. This amount includes the \$150,000,000 held as a reserve, \$270,019,989 held against gold certificates and \$69,392,169 in the general fund.

THE SAME CABINET NAMED.

First Official Act of President McKinley's Second Term.

Washington, D. C., March 6.—The president sent the following nominations to the senate:

John Hay of the District of Columbia, to be secretary of state.

Lyman J. Gage of Illinois, to be secretary of the treasury.

Ellihu Root of New York, to be secretary of war.

John W. Griggs of New Jersey, to be attorney-general.

Charles Emory Smith of Pennsylvania, to be postmaster-general.

John D. Long of Massachusetts, to be secretary of the navy.

Ethan A. Hitchcock of Missouri, to be secretary of the interior.

James Wilson of Iowa, to be secretary of agriculture.

Important developments are slated to take place immediately in the Philippines and Cuba. Within a few days President McKinley will submit to the senate nominations making Judge Taft governor of the Philippines and the remaining members of the present Philippine commission provincial governors. In accordance with the broad provisions of the Spooner resolution the civil government will displace the military regime under General MacArthur in the archipelago, and authority will be conferred upon the civil administrators to institute such forms of government as are deemed expedient to redeem the pledge made to the Filipinos.

Secretary Root received disconcerting information from Governor General Wood of Cuba. When the Cuban amendments adopted by congress were conveyed to the constitutional delegates at Havana there was but a slight murmur of protest, which removed all fears of insurrection. But the circulation of false reports among the populace, for which the protectorate policy serves as basis, has aroused vehement disapproval and Governor Wood confirms the cables stating that trouble may be anticipated.

Boers Occupy Pearson.

Craddock, Cape Colony, March 6.—The Boers have occupied Pearson, on the Great Beit river.

The British yesterday arrested the Rev. Mr. Heyneke, a minister of the Dutch Reformed church, under martial law.

To Keep Them from History.

Pekin, March 6.—An edict of the emperor of China annuls all decrees and reports rendered from June 20 to Aug. 14, 1900, in order that no trace of them be preserved in history.

DOINGS OF THE LAW MAKERS.

ILLINOIS.

Tuesday, March 5.

Representative Noble of Cook county is preparing a general franchise tax law for introduction in the legislature next week. The measure is to follow the Ford bill of New York, and is designed to cover all forms of franchise taxation and franchise licenses. Among the bills the following were introduced: By Mr. Erickson—Providing that no corporation supplying gas for illuminating or heating purposes or electric light or power shall, by virtue of any franchise or ordinance, discriminate in its rates. By Mr. O'Connor—Prohibiting railroad companies from requiring trainmen to give more than twelve hours' rest between such periods of service. By Mr. Rankin of Lincoln—A bill to abolish switching terminal charges at stockyards.

INDIANA.

Tuesday, March 5.

By a vote of 52 to 35 the lower house of the Indiana legislature adopted the Neal joint resolution for a constitutional amendment providing for woman suffrage in this state. After the vote a motion to reconsider was voted down to finally clinch the matter. Mr. Neal says he has canvassed the senate on the proposition and has assurances that the resolution will be adopted.

Refuse to Indorse Mrs. Nation.

Kalamazoo, Mich., March 6.—The prohibition state convention by an almost unanimous vote refused to indorse the work of Mrs. Carrie Nation in smashing saloons in Kansas. Prof. F. C. Goodrich of Ann Arbor was chairman and the Rev. W. A. Taylor of Plainfield secretary. One thousand and thirty-one dollars was raised by subscription for work in the state. Five thousand dollars is needed.

Dock Strike Continues.

Marseilles, March 6.—The dock strike continues. Only one or two steamers' cargoes have been discharged by their crews. The remainder are unable to discharge their cargoes. Manufacturers of Lyons and St. Etienne, who have a quantity of merchandise detained at Marseilles, have ordered it to be taken to Antwerp, whence it will be sent by rail to its destination.

Attacked by Filipinos.

Manila, March 6.—A wagon train

and a detachment of the signal corps, together with six Macabebes scouts, were attacked by the insurgents about midway between the towns of Silang and Dasmarinas, in Cavite province. Three Americans were killed and two of the Macabebes scouts were wounded, while one man is missing. Four horses and one mule were killed.

Forewarned, Forearmed.

The liability to disease is greatly lessened when the blood is in good condition, and the circulation healthy and vigorous. For then all refuse matter is promptly carried out of the system; otherwise it would rapidly accumulate—fermentation would take place, the blood become polluted and the constitution so weakened that a simple malady might result seriously.

A healthy, active circulation means good digestion and strong, healthy nerves.

As a blood purifier and tonic S. S. S. has no equal. It is the safest and best remedy for old people and children because it contains no minerals, but is made exclusively of roots and herbs.

No other remedy so thoroughly and effectually cleanses the blood of impurities. At the same time it builds up the weak and debilitated, and renovates the entire system.

It cures permanently all manner of blood and skin troubles.

Mr. E. E. Kelly, of Urbana, O., writes: "I had Eczema on my hands and face for five years. It would break out in little white pustules, crusts would form and drop off, leaving the skin red and inflamed. The doctors did me no good. I used all the medicated soaps and salves without benefit. S. S. S. cured me, and my skin is as clear and smooth as any one's."

Mrs. Henry Stoughton, of Cape May, N. J., says that twenty-one bottles of S. S. S. cured her of Cancer of the breast. Doctors and friends thought her case hopeless.

Richard T. Gardner, of Buena Vista, S. C., suffered for years with Boils. Two bottles of S. S. S. put his blood in good condition and the Boils disappeared.

Seek Relief!

The great proportion of women who suffer never make a serious effort to benefit themselves. The most of them go on paying no attention to their little menstrual disorders, believing they will eventually wear off. They grow worse and worse every day. At the period of menstruation a woman is peculiarly susceptible to cold and other external influences and it is also the most favorable time for the development of hidden disease germs which may be lurking in the system. Any physician knows that disordered menstruation, falling of the womb and leucorrhoea are blighting lives in almost every home. No woman should neglect herself a moment after she sees indications of female diseases. Almost instant relief can be secured by the use of

WINE OF CARDUI

It will relieve you right in your own home. Will you accept the testimony of Mrs. Beigler and thousands of other women and really seek relief today? All druggists sell \$1.00 bottles of Wine of Cardui.

100 Chicago Street, Fort Wayne, Ind., March 27, 1900.

Your Wine of Cardui has done a world of good for me. I have used five bottles of the Wine and one package of Theodor's Black-Drainage. And since I have started to use it I will not be without it in the house. It helped my six-year-old child, who did not menstruate as she ought. She was sixteen years of age and nothing else helped her. I was in a very bad state myself before I used your medicine, but I found relief in three days. And now I feel like a new woman and do all my housework and washing, which I could not do before I took Wine of Cardui. I would be very glad to write any poor woman and tell her how I suffered before I used Wine of Cardui.

Omega Oil

RHEUMATISM

—The only thing that goes in where the roots of Rheumatism are located is Omega Oil. The little Swiss green herb that they put into this liniment is the thing that does the work. The doctors can't explain how or why Omega Oil cures Rheumatism, but it does do it as sure as you're born. Begin by taking a nice warm bath. Wipe yourself thoroughly dry with a towel. Then pour a little Omega Oil in your hand and rub the place that hurts like a good fellow. Keep up the rubbing until all the oil goes into the pores of the skin. If the pain is stubborn, put some Omega Oil on a piece of cotton and bind it on the sore spot over night. In some cases a cure will come in one treatment, but in real bad cases you have to keep on doing this way quite a little while. Omega Oil is good for everything a liniment ought to be good for.

Omega Oil is for sale in most drug stores. Any druggist can get a supply of his wholesaler. If your dealer does not keep it, the Omega Chemical Co., 257 Broadway, New York, will mail you a bottle, prepaid, if you will send \$1.00 in cash, money order or stamps.
